Hello Steve,

Please find attached the draft VI Mitigation Work Plan text for your review. The VI Mitigation Work Plan figures will be sent in a second email.

Also attached are the items requested in USEPA's March 22<sup>nd</sup> email:

Building descriptions and sampling summary (Appendix E)

Analytical Result tables

Thank you,

Valerie

**Subject:** RE: South Dayton Dump Site - Work Plan Comments

Steve,

I had one quick question. Did you wish all of the building descriptions, sample summary maps and photos included in the VI Mitigation Work Plan or just the ones for the buildings where there are exceedances and we will be completing mitigation?

Thanks, Adam

Steve,

That should not be a problem. We were going to send you the revised draft today with previous comments incorporated but will hold off and instead make these changes before sending it.

Regards, Adam

**Subject:** South Dayton Dump Site - Work Plan Comments

**Adam:**

I am reviewing the CRA Vapor Intrusion Work Plan dated August 9, 2011. There are several sections that I would like to use in the 2013 Vapor Intrusion Mitigation Work Plan. For the most part, these sections require some minor updating and could be cut/paste into the 2013 Work Plan.

In the 2011 Plan, Sections 2.1 thru 2.10. These are descriptions of site buildings.

In the 2011 Plan, Figures 6-31. These are Sampling Summary Maps and building photos.

Can you merge this together in the 2013 Plan? For example a written paragraph about each building (similar to Section 2.1, then the corresponding Sampling Summary and building photos like in the Figures). This would place all building info together instead of separate Sections. The data tables will require an update with 2012 data and units changed to ppbv.

Also, with respect to Section 8 (Project Schedule) of the 2013 Work Plan, insert a Task and Schedule item for:

Initiate Section 4.1 tasks (Within \_\_\_ days of Work Plan approval)

Install SSDS system (Within \_\_\_ days of Section 4.1 task completion for each building)

Please send a revised draft Work Plan when available for review.

Thanks.
